COUNTY CANDIDATE WORKS IN CLARK COUNTY

One of the best political stories of the campaign emanates from Clifton and concerns the two wise women of the Greene County W. C. T. U. One of these women is a veteran campaigner, getting two hitches at each election. She holds the distinction of informing the Republicans who office to be nominated for state and county offices, and then at the regular election works for Democratic candidates. As the county line passes through Clifton part of the town is in Greene and part in Clark county. These two women, one of whom was Mrs. Carrie Flatter, boss of the organization and the other was Miss Mary Ervin, the latter the Gowdy-Marshall candidate for state representative, and a sister of Judge J. C. Marshall, who wants two years more at the county crib in the capacity of prosecuting attorney. These ladies made a call to interest a minister in the Ervin campaign. The minister listened very attentively as to why R. D. Williamson should not be nominated. Rev. J. F. Gordon, who has the Klan endorsement, received a good planning and then the Ervin merits were extolled. When the cigarette users, tobacco growers and smokers were laid out as enemies of the government, the Reverend in a very gentle manner politely informed the women politicians that he was sorry but he could not have a vote in Greene county as he was a resident of Clark county. The remarkable thing about the situation is that the good minister was never informed that Mrs. Flatter and Miss Ervin put forth every effort to get the Klan endorsement but fell down.

Those that have been following the famous cartoon in which Andrew Gump stars were amused Tuesday when in Andy's campaign for the presidency he announced a porch campaign. He ordered the painter to paint the roof red, the porch columns white and the floor blue. But Andy is not the only candidate that believes in porch campaigns. We hear that porch politics in Greene county is popular.

Last Thursday evening Xenians were treated to a porch campaign at the home of L. T. Marshall, candidate for State Senator. On the porch this evening sat the famous Columbus lobbyist for the American Tobacco Company and the American Book Company, D. Pemberton, who says he delivers the Clinton county vote according to directions. Marshall is counting on Pemberton delivering that county. We confess that it takes some nerve to stage such a campaign off a front porch in Xenia. Pemberton makes his money selling the passage of bills suitable to the above named companies and smothering such bills as the companies do not want enacted into law. As the Ervin home is but a pace away and the Miss sponsoring a campaign an anti-tobacco grounds, it looks like a complex situation. It is a safe bet that either Pemberton or the W. C. T. U. is going to get the double cross if Marshall should be nominated and elected.

Now for the decorations for the Marshall porch. Andy Gump has set a good example in the use of the National colors and they are certainly appropriate at this time. We would suggest that the roof be painted red to represent the blood wasted in mental torture, worry and sacrifice the hundreds of poor helpless women that have been led by Marshall in the sale of worthless stocks in companies represented by him as sound financial ally. The porch columns should be white as the driven snow as symbols of the church he has used to shield his mania for money from uninformed men and women. The white might also

represent that part of the white ribbon organization in this county that has degenerated into a common ad society for broadcasting political propaganda. The blue should represent the Ohio blue sky law that was intended to protect innocent people but has been used as only a guise to pilage the savings of hundreds of men and women some of whom are in broken health and some in the mad house.

The contest in the prosecutor race cannot be said to be a factional one as both candidates are from the one faction. Both Judge Marshall and his opponent, Frank Dean, have been members of the same faction for years. But there is a revolt in the Gowdy-Marshall faction. Those who in the past have obeyed orders and been good boys now seek relief from the oppression and revolt at continued dictation. Hardly a lawyer in the Marshall-Gowdy faction has had even recognition within the past two years, the rich cases all going to brother Roy. The boys helped Judge Gowdy get on the bench. Now Roy wants a job in Columbus. Sister Mary must be taken care of and the good things given to the family while the little fellows in the trenches that have carried the sand are lashed and told to continue or be kicked out. That's the reason Frank Dean is a candidate for prosecuting attorney and we find he has the sympathy of a large percent of the people. In the old days boys was the charge hurled at H. E. Schmidt, but he certainly can find a bit of comfort in his recent defeats by seeing events come to the surface as they are today in this county. Even the Marshall-Gowdy aid society, the W. C. T. U. is torn to shreds over the dictation attempted by Mrs. Flatter. Mr. Dean has some staunch friends in the woman's political organization that under the Flatter management is but masquerading as an agency of what the name once stood for. It is certain that Mrs. Flatter will not have all the ladies votes safely pocketed away in her shopping bag ready for delivery on election day to Mr. Marshall.

The governorship situation seems to concern many people at this time. We find that Senator Burke has quite a following, probably the lead in this election at this time. There are several other candidates, but James White, former head of the Anti-Saloon League came next. Many temperance advocates are far from being with White due to his association and the active support of the Harry Daugherty crowd. Many think the White record is far from being white when aligned with the record of Daugherty who was forced out of the Coolidge cabinet. White's nomination means defeat this fall by Donahay. Former Governor Harry Davis is next in consideration and probably deserves the nomination more than any of the candidates. Not a word can be said against his administration. He forced through the re-organization bill that caused a split in his party, but has saved the state several million dollars. Davis was forced out of his second term by party politicians who never want useless offices abolished. Davis was as dry as a bone and removed a law, his record in that respect is on par with anything that Burke, or White could promise. When it comes to a business administration no flaw can be picked in the two year term he gave the people of Ohio. But at this time Senator Burke has the lead not only here but over the county from what we can learn.

The Herald some weeks ago gave out readers the first intimation of a deal that was proposed by L. T. Marshall to the K. K. K. that he would endorse their candidate for the Xenia post office, Prof. D. H. Barnes, in return for the Klan endorsement to Marshall in his candidacy for state senator. The post office is still hanging fire. Postmaster Rice's term has expired. Marshall has not yet been able to deliver the Republican committee to the Klan. The Klan is sawing wood but playing a safe brand of politics. The Klan has a list of candidates for Republican central committee in the county. More than that the organization has a majority at this time and the election is not due for nearly a month. The Klan is not worrying about what Marshall does. Better days loom ahead and the organization is abiding its time. The Klan might be interested in a report about an insulting letter that is said to have passed from the county boss to Senator Kess. Big things loom in the near future.

GREENE COUNTY SUNDAY SCHOOL CONVENTION

The forty-third annual convention of the Greene County Sunday School Association will be held Thursday and Friday at the First Presbyterian church in Xenia. Rev. W. P. Harriman is president of the association. Among the speakers are Rev. W. B. Leis, Rev. W. P. Clark, Mrs. Frank H. Dean, Mrs. E. J. Converse, Columbus; Miss Alberts Cresswell, Dr. W. R. McChesney; Rev. W. H. Tilford will have charge of the singing.

CHARLES H. LEWIS CANDIDATE FOR LIEUT. GOVERNOR

Mrs. Lida Keok Wiggins, formerly of this place, at one time society editor of the Springfield Sun and a writer of verse which is used in many publications, was in town Tuesday and gave this office a pleasant visit.

Mrs. Wiggins is doing press work in the interest of Charles H. Lewis, of Upper Sandusky, candidate on the Republican ticket for lieutenant governor at the coming primary. Mr. Lewis is publisher of the Daily Union in his city. He is head of a bank, owns farm land, is an extensive farmer. He knows and understands the needs of the farmer and is prominent in the Farm Bureau.

Mr. Lewis has been a school teacher, was a student under Dr. Koss at Ohio Northern University; and graduated from Ohio Wesleyan University in 1895. He has been mayor of Harpersburg since 1904, and township treasurer for 25 years. For years he has aided financially young people to get a college education.

Mr. Lewis is a 32nd Degree Mason, a Shriner, an Odd Fellow, Elk and is a Kiwanian. He belongs to the Columbus Athletic Club and the Benjamin Franklin Chapter of the Sons of the American Revolution.

It so happens that Mr. Lewis is personally acquainted with Prof. L. D. Parker, superintendent of our schools, who is from Harpersburg.

Mrs. Wiggins was accompanied by Mrs. Randolph Hayward of Springfield on her tour over this section of the state in Mr. Lewis' behalf.

MRS. JULIA CONDON DIES AT HOME OF HER SON

Mrs. Julia Condon, 81, formerly a resident of this place, died at the home of her son, Rev. W. A. Condon, in Uriceville, O., Sabbath morning. The deceased had been in failing health for some time previous to her death.

Mrs. Condon was the daughter of the late Bloss Bird, and her husband, Thomas Condon, preceded her in death many years ago. She is survived by her son, Rev. Condon, and a daughter, Mrs. Harry Fluhr of Dayton. One sister, Mrs. H. A. Turnbull survives. The late Robert Bird was a brother.

The body was brought to the home of Mrs. Robert Bird where funeral services were held Tuesday afternoon. Dr. J. P. White had charge of the services. Burial took place at the Baptist cemetery.

HAGAR PAPER COMPANY WINS INJUNCTION SUIT

The suit of Paul James and others seeking a permanent injunction to stop the Hagar Straw Board & Paper Company from using the creek for disposing of the wash water in that it was poisonous was heard several days ago before Judge Gowdy. Some days previous a temporary injunction was allowed but as we understand it the order is that the company is not to empty poisonous or deleterious matter in the stream, which is nothing more than what the state law provides for. The company is granted use of the stream. The case will be heard on its merits. We are informed that the plaintiffs will appeal.

SELECT INSTRUCTORS FOR JUDGING SCHOOL

Greene county will furnish four out of the twenty-one instructors from over the state who will serve at the livestock judging school for county fair judges to be held at the Ohio State University Thursday and Friday. R. D. Williamson will serve as instructor in judging sheep and short horn cattle. Charles T. Stevenson and Morton R. Grinnell will instruct in Herford cattle and F. B. Turnbull in the Angus class.

COUNTY COMMISSIONERS PROMISE BRIDGE REPAIR

The members of the Board of County Commissioners, Messrs. John A. North, Herman Eavey and George N. Perrill, in company with County Surveyor, W. J. Davis, were in town Wednesday and after inspecting the Main street bridge promised new walks and a cement balustrade. This will not only add generally to the appearance of the bridge but will in the end make it safer as the old hand rail has served its day. Several members of council met with the board at the time the inspection was made.

GETTING PUBLICITY

The large city papers have been making much out of the gasoline situation and Cedarville is being cited as one of the few towns in the state where gasoline is being sold at 17 a gallon; 19 at another station and 21 another. The later price is the prevailing one in all the cities. It is peculiar that price reductions are being made only in a few small towns,

COLUMBUS PAGES GAS WAR

The president of a gas company in Columbus has served notice that he will have an increase of 10 in the price of gas by September or there will be no gas after that time. The gas company franchise expires soon and the city council is willing to give a fair rate but "consider a ten cent increase out of reason. An expert gas engineer reports; the company paid a fifty per cent dividend last year and that the increased price is not warranted. The question will go to the Public Utilities Commission for settlement, which means certain victory for the gas company. The power given this commission is what Senator Burke fought in the last legislature and what is making him strong in his campaign for governor. Gas consumers might take into consideration which of the candidates for state senator if nominated and elected will vote to uphold the public utility commission. Cedarville granted the gas company an increase in rates last year, and in the dead of winter our gas was ordered reduced in pressure on orders from Columbus. It will not be long until new rates will be asked for this place. Better give this subject some consideration unless you care to pay just what ever price the company demands. The same interests that own the Columbus gas own the local distributing company.

10 HOGS PREDICTED FOR FALL MARKET

Everett C. Brown, president of the Chicago Live Stock Exchange, holds an optimistic view as to the price of hogs for fall. He says: "On the basis of the present price of corn, matured hogs are worth at least \$10 per hundred and I would not be surprised to see that figure reached before the first of October. These good 90 to 120 pound pigs that are selling from 4 1/2 to 5 3/4 cents per pound if fed a little corn by the hog feeder will make more money in the next 60 to 90 days than anything he could handle. "Hogs have been losing from \$400 to \$500 per car on the basis of the present price of corn. In other words if the farmer had not fed his corn to the hogs but had sold it at the present market for corn he would be \$400 to \$500 better off."

BOYS' AND GIRLS' ORGANIZATIONS VISIT DAYTON

Members of the Boys' and Girls' clubs in Greene County were taken on an educational sight-seeing trip to Dayton Tuesday. The boys visited the Dayton Stockyards and the Pocka packing company and witnessed the different stages through which stock passes from selling to the curing and handling of meats. The girls visited the Rike-Kumler store where the educational director gave them a talk on the selection of material for garments. The party enjoyed a picnic at the National Military Home at noon.

WHEAT PRICE TAKES A DECIDED JUMP THIS WEEK

Farmers are much encouraged over the increase in wheat prices. We are informed that \$1.12 for August delivery is being quoted. Some predict that wheat will go to \$1.50 per bushel due to poor crops in the great Canadian wheat belt. The crop in this country will be short several million bushels according to government reports. Locally the wheat is said to be of a good quality and will average from 20 to 30 bushels per acre. There will be no threshing for probably a week yet.

SHORTS AND MIDDINGS

A rapid death rate among the boarder cows on Ohio farms would help some dairymen turn losses into profits.

Stocks of industries allied to the farm have dropped even more in price during the past three years than Ohio farm land has, economists at the Ohio State University have found.

It goes by an odd name—botulism—but it just means canned food poisoning. Examine cans before you open them and take a wary sniff of the contents before you eat them.

Lightning rods poorly installed invite disaster. Ground connections should be at least eight feet deep, or down to perpetual moisture.

Shallow cultivation of corn beats deep cultivation by at least 4 bushels an acre, according to nine years of test plots at the Ohio Agriculture Experiment Station.

REDUCTION IN WAGES The Hagar Straw Board & Paper Company has announced a ten per cent reduction in wages, effective Monday next. The continued drop in the price of paper and the slow demand for paper made the reduction in wages necessary.

HOW THINGS TURN OUT

Several years ago we took lunch at a Columbus club with one of the august members of the Ohio Supreme Court that had spent most of his life on the bench in various courts where he had an opportunity to get first hand information as the basis of most of our social evils.

He told of numerous cases wherein the parents of many wayward boys that had brought scandal into the home had neglected their own sons but were always the first to tell their neighbors how to raise a family. This learned and conscientious jurist made no effort to conceal the names of a number of cases that he had observed wherein the mother had neglected her

own home in her zeal to see that some other lad was kept in the straight and narrow path.

The arrest several days ago of a number of boys that had been breaking the law systematically for personal gain brought to our memory the statement of the jurist. Here was a case where the father was so busy enforcing what he thought was the letter and spirit of the law to protect the little fish that a great manufacturing institution was being discriminated against. This has been going on for several years. During this time a son was coming into manhood yet this father, a stickler for law enforcement, failed to observe the associates of his son, his comings and goings and the boy faces prison sentence on his own admission of guilt.

We have in mind another person, one better known as a woman politician. She has been great for reforms, law enforcement, punishment of wrong doing and especially strong on telling parents just how to raise a model child. In this case the jurist was right in his opinion. This woman would today go out of her way

to advise as to the habits not only of the young but would force her personal ideas on mature citizens. The closet in this woman's home is not without a skeleton. Here a few years back held a neighborhood public sale and neighbors put in stock. The sale was held. The boy collected the money. He skipped between two suits for the west and has never set his foot on Greene county soil to this day. The farmers were in a rage. They wanted their money. Arrest was threatened. The parents were called in. They admitted after some pressure that they did not know where the boy was. Payment was demanded and after a time the parents forced over the amount. The farmers were satisfied but the purpose of the law was defeated. This mother without doubt shielded her wayward son, a no uncommon thing for a mother to do. But it would look much better that this woman keep some of her advice to herself and no be so much concerned about other people's children. The mother that is rearing her own son or daughter has but little time to advise what others should do, unless advice is sought.

POLITICAL ANNOUNCEMENT

We are authorized to announce the name of Harry E. Frahn as a candidate for County Commissioner subject to the Republican primary, August 12.

KEEPING WELL

KEEPING HUMAN MACHINE FIT

DR. FRIEDRICH R. GREEN

Editor of "Herald"

IF YOU were given an expensive automobile you would take good care of it, wouldn't you? You know that a high-priced car is too valuable to monkey with.

You would see that it was kept clean; that there was always plenty of water in the radiator, so the engine wouldn't get overheated; that there was plenty of oil, so that the bearings wouldn't get hot and grind themselves to pieces, and that any worn or weakened parts were replaced. You would have the motor adjusted so that there would be no lost motion.

If you weren't a capable mechanic yourself, you would have some man who knew all about automobiles go over your car every few months and see that it was in good working order. But suppose you could only have one car and that car had to last you all your life and that you couldn't get any parts to replace those that were worn out or broken. Then you'd take even better care of it, wouldn't you?

Your body is a more intricate, delicate and valuable machine than any made by human hands. And it's the only one you'll ever have. You can't turn it in when the engine begins to knock or the frame begins to rattle. You can't sell it and get another one of a different model that suits you better.

You've got to go through life with just one human machine. Isn't that one worth taking care of? You can't get a new heart when your old one breaks down, or have a new stomach put in if your old one gets a perforation.

All the more reason why you should take care of the one you have. Isn't it good common sense to learn how to take care of your body? To have someone who knows how the machine is made and how it works look it over regularly and see if it's wearing out anywhere? And to have any injuries to your machine repaired as quickly and as completely as you can?

Isn't it good sense to take at least as good care of your body as you do of your automobile and to give your body as much care as you would any other expensive, valuable and delicate machine?

Sounds reasonable, doesn't it? Think it over.

This Week

WHEAT IS GOING UP. EUGENE MYER JR. IN CHARGE BEER AND SHIPS. MORE THAN AIR MAIL SERVICE.

The Department of Agriculture says farmers all lost money on their wheat last year. It cost \$1.24 a bushel to grow it. The average price was 90 cents. Unless all signs fail farmers will get all the wheat cost this year and a good deal more. Many sections of the country producing fewer than 15 bushels of wheat to the acre, with labor and fertilizer costing what they do, it is hard to see how wheat can pay even at \$1.24. The Republican plan is to force the price to \$1.50. How many votes would that be worth?

If farmers have any wheat unsold from the last crop—they usually have none when the price goes up—let them hang on to it. And if they are wise they will hold for wheat now being threshed.

When the really big people want wheat to go up, as they do now, it goes up. They have the power to make it go. It is not like one of those little professional wheat gamblers, or little pool, trying to dip the wolves of the "short side."

Other grains, corn especially, and cotton and stocks, will travel upward with the wheat. What Republican victory, BIG VICTORY, demands is a properly happy and capable Government to lend them more money.

DON'T GAMBLE, HOWEVER. It is dangerous to pray that farmers may have better times and better prices. It's foolish to gamble on it. No little man is smart enough or quick enough to survive in that game.

If you happen to come in contact with Eugene Myer, Jr., who is now traveling through the West, you might get valuable information. He is said to intend to put the average value of cattle up \$10 a head. That would help some.

A time is coming when lack of American-owned ships will cost more billions than that same lack cost in the last war.

The various brands of beer, religion, foreign entanglements, etc., all have their importance.

But none is as important as the safety of the country. And that depends on ships. ON the water for carrying goods and troops, ABOVE the water and UNDER the water, for fighting.

A little while ago we were begging England to make room for our soldiers in her ships, and paying English shipping companies 7-8 cabin rates for less than steerage accommodation for American soldiers sent over to help England and France.

But all that seems to be forgotten. Dr. E. Lyman Fish, scientific authority, says "Alcohol is a liability." Tests prove that "moderate drinkers do not live longer than total abstainers." That's interesting and important.

However, those on the other side of the fence say "Mere LENGTH of life is not the important thing. It doesn't matter so much how LONG you live, as how EFFICIENTLY you live."

The younger Pitt, for instance, undoubtedly drank himself to death. But while he lived he kept Napoleon Bonaparte out of England. And that was more important to England than having him live to be one hundred and fifty would have been.

Again, it may be said that if he had drunk only water, he might have been twice as good a Prime Minister in addition to living to be a hundred.

About these things we, as yet, know nothing.

While you are sleeping, flares for the post office are crossing the country, guided by "light patches" blazing with lights of many millions candle power. Eventually, of course, that lighting will be cheap. It is only a question of power, of borrowing from the sun in the daytime enough energy to duplicate sunlight feebly at night.

Postmaster General New is to be congratulated on his excellent work in developing the airmail delivery. What he does for a greater mail delivery, while most important, is of far less value than his admirable work in developing the American flying machine and American fliers.

He Couldn't Wait

One evening when calling on my sweetie her little sister ran into the room and jumped on my lap. She sat still for a few minutes, then suddenly she threw both chubby arms around my neck. "I just love you, Dan," she whispered in my ear. "I wish you'd please wait till I grow up so's I could marry you!" But I didn't. I married "big sister" instead.—Chicago Journal.

Kitchen Floor
It wood is used for the kitchen floor a hard, close-grained lumber should be chosen. A lumber of this type will give longer service, is tougher and will resist water better than one which is softer and has more open pores. Maple is one of the best lumbars for this purpose.

Getting Around Law
Beggary here is forbidden by law—but it doesn't prevent it. Your London mendicant provides himself with a half dozen moth-eaten shoelaces or with three boxes of sulphurless matches and becomes a salesman. The police respect him as a salesman, although people don't buy. They give alms and pass on.

Famous Mount
Mount Parnassus is in ancient Phocia, 85 miles northwest of Athens. It is celebrated as one of the principal seats of Apollo and the Muses, and as an inspiring source of poetry and song. The Delphic oracle and the Castalian spring were on its southern slope. The expression "to climb Parnassus," meaning to write poetry, is an expression once in vogue.—Kansas City Star.

HOW TO SAVE MONEY WHEN SHOPPING

By MRS. HARLAND H. ALLEN
(© 1915, Harland H. Allen.)

TO TELL WHETHER A COLOR IS FAST

"Oh, look, my beautiful blouse is all ruined!" Have you not often said that, when you removed your coat or suit and found that the color of the lining had come off on your waist?

If you had remembered when buying the suit-coat to take along a clean, white cotton handkerchief and rub it briskly over the lining you might have saved yourself this disappointment. If any of the color comes off on the handkerchief, the fabric is not fast to friction.

Do you know how Uncle Sam sometimes tells how a piece of military cloth is fast to perspiration or not? By placing small samples in the shoes of marching soldiers, or under the saddles of those on horseback. A few days' test in this way will prove beyond a doubt the degree of fastness.

So if you are buying material for lining, underwear, or a dress or blouse, the best way to test it is by wearing a sample next to the skin for a few days.

Another test you can easily make for fastness to perspiration is to steep a sample in acetic acid for a few minutes. If the color does not fade then, you will be safe in making the purchase.

If you want to tell whether any goods are proof against "spotting," sprinkle a sample with water, and then dry before brushing off. If there is any change in either the color or luster, do not buy it for a suit or dress, as it will never be practical for street wear or general outdoor use.

The only way to tell whether goods are fast to washing is to actually wash a sample in hot soap suds, and then compare it with the original material. Sometimes in buying a colored fabric to make up in combination with a white piece of goods, you want to know if the colored material will "bleed." Braid a strip of the white with a strip of the dyed, and wash together. If the colors are not absolutely fast, they will "run" into the white.

In order to tell how fast a material may be to light and air, expose a sample in a sunny window for several days. This takes time, but you may save yourself many a disappointing purchase in this way.

MIAMI COUNTY PUBLISHERS ENTERTAIN VALLEY EDITORS

Messrs McClung and Fauley of the Troy Daily News and Paul Langley of the Troy Country Club, were hosts to the members of the Miami Valley Press Association at the new country club that has been opened lately by the leading citizens in that county. The Country Club purchased a farm of 87 acres and erected on of the most modern club houses of the English colonial type we have ever visited. It has handsome furnishings and every appointment for entertainment is provided. The grounds are being beautified a golf course laid out. A large cement swimming pool with shower baths are also provided. The hosts provided a most excellent meal that can be had for members and guests at the club house.

COLLEGE NOTES

The following have contributed toward the clearing of the debt during the past week:
Benj. G. Ridgway, Dayton, O., 10.00
Class of '24, Cedarville College, 16.00
This leaves a total of \$588.34 to raise. We thank these, who have contributed. The college needs the money and we appreciate the splendid manner in which its friends are responding to the call. We sent out this call the 8th of last February for \$3,000 to clear away the debt and now only a little over \$500 is left to raise. Who will help this week? We are sure that there are others who wish to give to this good cause. Let us clear off the rest of this debt before the college opens in September for another year. Anything you can give will be gladly received.

All who have rooms to rent let me know at once. Any who can give work to deserving students please tell me. Those who wish to arrange their courses of study will please see me before July 26. After that date confer with Dr. Jurkat or Prof. Frazer or both about courses of study and rooms.

CEMETERY PURCHASES STRIP OF LAND

Massies Creek Cemetery Association has purchased a strip of land at the rear of the old addition from W. C. Bull for a driveway into the new addition that may be opened in the near future. The board plans for additional burials ground to care for the increased demand for lots. Other improvements are contemplated for the improvement and beautification of the grounds.

DRIVE FOR LORAIN AID

Greene county has been asked to aid the unfortunate at Lorain and to this end the Farm Bureau, the Rotary Club, Kiwanis Club, American Legion and other organizations have promised to aid in this worthy cause. The rural sections have been asked to raise \$850 while Xenia will raise \$1,000. The state will raise \$600,000 to assist in the work of restoring the homes of the poor in that stricken city.

FARM BUREAU WILL HOLD SUMMER MEET IN COLUMBUS

Presidents and secretaries of all of the 45 county farm bureaus in Ohio are expected to attend a meeting for the discussion of policies and problems of that organization on July 29, the meeting to be held in Columbus. The officers of the county farm bureaus are being called to aid in making the program of work for the organization for the balance of the year.

IMPROVED UNIFORM INTERNATIONAL Sunday School Lesson

By REV. J. B. FLETCHER, D.D., Dean of the Evening School, Moody Bible Institute of Chicago.
(Copyright, 1914, Western Newspaper Union.)

Lesson for July 20

THE BAPTISM OF JESUS

LESSON TEXT—Mark 1:1-11.
GOLDEN TEXT—"There art my beloved Son, in whom I am well pleased."
—Mark 1:11.
PRIMARY TOPIC—Jesus Pleases His Father.
JUNIOR TOPIC—John and Jesus at the Jordan.
INTERMEDIATE AND SENIOR TOPIC—Jesus Dedicates His Life.
YOUNG PEOPLE AND ADULT TOPIC—The Meaning of Baptism.

In order to appreciate the lesson for today one should have an understanding of the purpose of the Gospel according to Mark. In the Old Testament is set forth an august portrait of Jesus Christ Who is the Branch, the King (Jer. 23:5), the Branch, the Servant (Zech. 3:8), the Branch, the Man (Zech. 6:12), the Branch of Jehovah (Isa. 4:2). The fourfold account of the Gospels placed alongside of these predictions fits exactly. Matthew exhibits Him as the Promised King, Mark as the Servant of Jehovah, Luke as the Man Redeemer and John as the Son of God. The theme of Mark is the Gospel of Jehovah's Servant (Chap. 1:1). The key verse is 10:45, and the key words are "sacrificeway," "forthwith," "immediately."

1. Who the Servant is (v. 1).
"Jesus Christ, the Son of God." Jesus means Saviour. Christ means Anointed. This Servant who so fully and completely obeys God's will is none other than God's Son.

2. The Servant's Forerunner (vv. 2-8).
1. Who He Was (vv. 2-8). He was John the Baptist. His mission was to prepare the way for God's Servant. He was prophesied concerning more than five hundred years before he came. (Isa. 40:3).

2. His Message (vv. 3-8).
(1) "Prepare the Way of the Lord" (v. 3). This means to remove from your hearts everything which hinders the incoming of the Lord, to break down the high places of pride and to straighten out the crooked places, not only to confess your sins, but to give substantial evidence of repentance.

(2) "Baptism of Repentance for the Remission of Sins" (v. 4). In preparation for the coming of Christ the people were to repent and those who repented were to be baptized. Baptism was administered to those who repented as an expression of the repentance which led to the forgiveness of sin.

(3) The Coming of Christ (v. 7, 8). This coming was to be much greater than that of John. This superior dignity was not only in His person but in the work He was to perform. John baptized with water, but Jesus was to be the baptizer with the Holy Ghost.

3. His Success (v. 6). People from all over Judea and from Jerusalem went out and were baptized. John's dress and demeanor were in keeping with his stern mission. His food and dress indicated that he had withdrawn from the world as a protest against its follies and sins.

4. The Baptism of the Servant (vv. 9-11).
While the forerunner was discharging his office Jesus emerged from his seclusion at Nazareth and demanded baptism at John's hands.

1. Its Significance.
Negatively. It was not because He had sinned for He was absolutely sinless, harmless, undefiled, separate from sinners. This separation was so complete that even the Devil could find no occasion against Him. (John 14:30).

Positively. Its significance is found in harmony with the purpose of His coming into the world, which was to secure for His people salvation through death and resurrection. This act was His official entrance upon His work. It was an act of consecration on his part to the work of saving His people through sacrifice. While baptism is a sinner's ordinance, He was baptized, not because He had sinned, but because He took the place of sinners. He was so devoted to them that He entered upon His mission by submitting to the ordinance which typified death and resurrection. In this He who knew no sin was made sin for us that we might be made the righteousness of God in Him (II Cor. 5:21).

2. Approval From the Open Heavens (vv. 10, 11). Immediately following His consecration to His work the heavens were opened and the Spirit came and abode upon Him, followed by the words of approval from the Father. All these were essential for the work upon which He now entered.
